

THE CORONAVIRUS

(COVID-19)

How can you prevent infection?

- **Stay at home when you are sick!**
Contact Health Services and your supervisor by phone.
- **Greetings without touch:** Avoid shaking hands and other physical contact, both with colleagues and with customers or suppliers.
- **Wash your hands regularly** with soap and water (20 sec) and dry with a paper tissue.
- **Use your paper tissue once** and throw it away in a garbage can.
- Don't have a paper tissue at hand? **Then cough or sneeze in the inside of your elbow.**
- **Use telephone or video conferencing.**

Work safely and help each other with this!
